

“Earth Long Ago”

Study Guide

- *Scientists try to reconstruct dinosaur skeletons from fossils.
- *Dinosaurs are extinct.
- *Triceratops means “three-horned face.”
- *Paleontologists are scientists that study fossils.
- *Fossils can be found in rock, tar, and amber.
- *Dinosaur means terrible lizard.
- *Some dinosaurs laid their eggs in nests.
- *A meat eating dinosaur had long, sharp teeth. A plant eating dinosaur had short, dull teeth.
- *Students will need to draw a picture of a plant fossil and a picture of what the plant looked like when it was living.
