

“Where We Live”

Study Guide

- Canada borders the United States to the north.
- Mexico borders the United States to the south.
- There are 7 continents.
- A country is the land and people who live there.
- The biggest location you live in is the Earth.
- You live in the state of Kentucky (or Ohio for a couple of you)
- A border is the imaginary line that separates two countries.
- Students need to be able to name their continent, country, state, and community.
